

## Why ADGTK?

Our training is designed around the way dogs learn. You'll receive a smart, structured plan to take away the frustration of stalled progress. Our positive, rewarding methods motivate both you and your dog and make training something you forward to.

**Effective.  
Efficient.  
Expert.**

**Manners matter.**

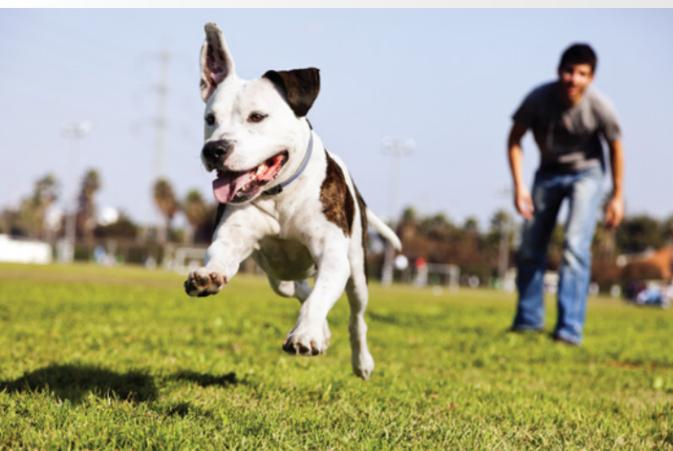

reward-based, effective  
**DOG TRAINING**  
for the life you lead

## OUR APPROACH The ADGTK way

The ADGTK way is the way of the dog. It's training that's in tune with the way a dog learns and at their pace. We structure our training thoroughly. We break everything down, step-by-step, to break through the human-dog communication barrier. Your dog becomes super clear about the behavior that is expected and knows it will be the most rewarding. It's the smart route to a sociable, well-mannered dog that is a pleasure for anyone to be around.

We don't work on trial and error. Our methods are drawn from a rigorous study of dog behavior. We know how to motivate and reinforce so there's no need for harshness or dominance. And you get results.

**Fun and  
effective**  
training solutions

### private training

Sometimes private training is the most appropriate or convenient option. You get 100% of your trainer's attention, so you see results more quickly.

### group classes

Our group classes are a fun, fast-paced, cost-efficient approach to training. They also give you the opportunity to practice around a very common, sometimes challenging distraction - other dogs!

### dog walking & day training

Instead of trying to work around your jam-packed schedule, let us do the work for you. Whether your pup needs a walk to break up his day or training for a behavior problem, we're here to help.

### cat consultations

While cats are highly adaptable, many behavior problems arise because there is a clash between what cats need and what humans provide. We can help you find the balance.

### seminars and workshops

We hold seminars on dog behavior and training issues for animal professionals, rescues and shelters, dog enthusiast groups and educational institutions.

### lunch and learns

We offer FREE Lunch and Learns to veterinary clinics, doggie daycares, dog walkers/pet sitters, groomers and the like. Let us feed your staff and give them a crash course in dog behavior.
